

## Repair. Maintenance. Replacement.

Tekwell offers full service and repair for industrial motors, drives, and pumps. From fractional horsepower to medium voltage, we have the skills and equipment needed to repair, test, and install machinery while ensuring peak efficiency and reliability. We don't take shortcuts. We test, and re-test, and test again. We aren't satisfied until you are.

Our field service technicians are highly qualified and have extensive knowledge of VFDs, PLCs, vibration testing, thermography, and alignment. Many of our technicians have been with us for 20+ years and are on call 24/7/365.
